

Therapist/Clinician STOP Adult Service - Dunedin

STOP is a specialist provider of high quality community-based treatment services that make a difference in the lives of families affected by harmful sexual behaviour and achieves highly successful outcomes.

Due to the expansion of services, STOP is recruiting a full time clinical position with the Adult Service. Part time hours can be negotiated. The position will require the successful candidate to complete risk assessments and deliver individual and group based interventions to both mainstream and intellectually disabled service users with a history of harmful sexual behaviours.

The ideal applicant will have:

- A qualification in Psychology, Social Work, Counselling or equivalent
- Experience in clinical assessment.
- The ability to work independently and systemically with families and support providers.
- Experience and skills in therapeutic work with adults with an intellectual disability.
- Knowledge of the dynamics of harmful sexual behaviours and modalities of interventions to address this behavior with both mainstream and ID service users is preferable

STOP has achieved a reputation for supportive staff development through high quality supervision and training opportunities and provides a positive and professionally stimulating work environment for employees.

This is an exciting opportunity for an experienced clinician to gain experience in a challenging and interesting area of clinical work. Specialist training will be provided to the successful candidate.

Applications will be processed as they are received.
