

Keep tamariki safe from R-rated material

- Things are R-rated or restricted for a reason
- It's not OK for **tamariki** (children) to look at R-rated movies, games or images
- If adults are watching R-rated movies or games, make sure all **tamariki** are not watching
- **Tamariki** do not have the **emotional maturity** to process R-rated content

Keep children safe from R-rated material

- It is difficult for **tamariki** to distinguish between **fantasy and reality**
- Exposure to R-rated material can contribute to **tamariki** initiating sexualised play and behavior beyond their developmental age and stage
- **Tamariki** can feel scared, **confused** or yucky when they are exposed to this material
